

# Prospectus for Post Graduate Degree Super Speciality / Higher Speciality Courses for the academic year 2014-15

## Chettinad

Academy of Research & Education

(Deemed to be University Under Section 3 of the UGC Act 1956)

**Educate - Enlighten - Empower**  
A Global Centre for Excellence

# The House of Chettinad

The House of Chettinad was founded by Rajah Sir Annamalai Chettiar.

One of the earliest proponents of corporate social responsibility, and more inclined towards action than speech, the House of Chettinad has consistently demonstrated this commitment in several ways, including the establishment of the Rajah Muthiah Chettiar Charitable and Education Trust by the founder's illustrious son, Dr. Rajah Sir Muthiah Chettiar.

Continuing in the tradition of doing public good wherever possible, the Chettinad Academy of Research and Education is yet another humble contribution from the House of Chettinad to Education and Healthcare.

**Wherever the art of medicine is loved, there is also a love of humanity.**

**-Hippocrates**

**Dr. M.A.M. Ramaswamy**

**Chancellor**

**Chettinad Academy of Research and Education**

"While India has been progressing in almost all fields, for most Indians, quality medical care at an affordable cost has been a distant dream. The establishment of Chettinad Health City is our first step in this direction, where Education, Research and Healthcare come together to make the dream a reality."

**Prof. Dr. V. Raji**  
**Vice Chancellor**  
**Chettinad Academy of Research and Education**

**“Chettinad Academy of Research and Education offers a holistic education beyond the boundaries of specialized study”.**

Chettinad Academy of Research and Education stands for professional education, indigenous collaboration, community engagement, research excellence and organizational strength. It combines sound traditional values with innovation, thus allowing no room for mediocrity.

As teaching and research activities in the sector become increasingly global, the University is intensifying its focus on international partnerships, developing new relationships with esteemed overseas universities and strengthening existing collaborations, thus ensuring the relevance of the education imparted. Every course has a built-in work component which lays special emphasis on skills in demand. This enables students to be work-ready as soon as they graduate. Of course, most of this has been possible thanks to the untiring efforts of our staff, dedicated teachers and inspiring educational entrepreneurs.

Professional orientation, excellent teaching, innovative course delivery and successful use of technology make Chettinad Academy of Research and Education home to the next generation of healthcare professionals.

## A City of Excellence

Why are so many Nobel Laureates in Economics from Chicago? Why so many IT innovators from Bangalore? Why are the foremost Hindustani musicians all from Banaras? Why does excellence often seem concentrated in one city?

We believe that when a city offers the resources and climate for the best professionals from connected disciplines to work, think, interact and be challenged by each other, it transforms itself into a crucible for excellence in that field, attracting further talent, innovation and investment. This simple insight inspires our vision for the Chettinad Health City. By creating a campus with world-class infrastructure and stimulating professional conditions for diverse healthcare disciplines and generate the critical mass for powerful transformation of healthcare in our region.

### We believe, that

- Health cannot be the privilege of a fortunate few
- When it comes to healthcare, don't-care is no more an option
- Indian healthcare professionals are amongst the best in the world
- We have the managerial skills for a successful public health program
- Today's healthcare challenges call for multi-sectoral partnerships
- There is tremendous synergy that results when people with a shared goal work together
- Investing in public health is investing in the future

# HEALTH CARE FOR ALL WE CAN. WE WILL.

# What does Chettinad Academy of Research and Education Offer You?

Chettinad Academy of Research and Education is an integral part of the Chettinad Health City, a pioneering concept that strategically combines the best of Education, Research and Healthcare delivery to provide synergy across the entire healthcare spectrum.

Chettinad Academy of Research and Education has been accredited by NAAC.
